

# Taurus

## Product Description

Taurus is a Nylon-like resin that has good temperature resistance (of 90°C), toughness and a smooth surface. It is suitable for outdoor parts, gear parts, and casings.

## Physical Properties — Liquid Material

Tensile Modulus	ASTM Method D648	2310
Tensile Strength	ASTM Method D638	46.9
Elongation at Break	ASTM Method D638	24%
Flexural Modulus	ASTM Method D2240	2054
Notched Impact Strength	ASTM Method D256A	47.5 J/m
Thermal Deformation	ASTM Method D648	90°C
Water Absorption	ASTM Method D570-98	0.75%
